

**INVITATION FOR  
HEART HEALTH**

The heart health is the most important in our life!

In China, 290 million people has heart diseases. Among them, heart failure has 4.5 million.

It is a global issues, so there are World Heart Day at the last Sunday of September every year.

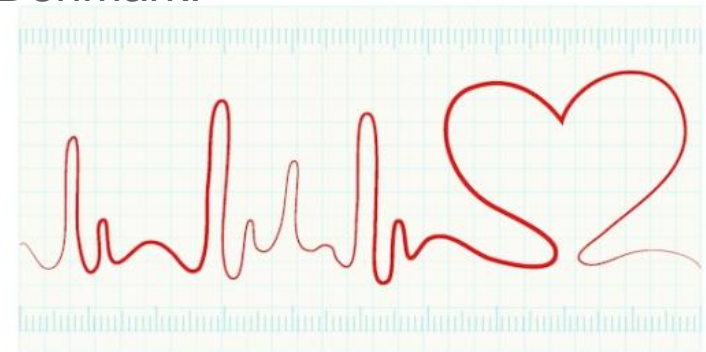

China-Europe Productivity Center AB (CEPC) is a fund company.

Aim is to share good technology for all people.

The core team is from Chinese Science and Technology Service System.

Since 2008 to now, CEPC run projects in Sweden and Denmark.

<http://www.cepc.se>

In 2018, CEPC met more and more cases of heart health in China. CEPC understanding that the Heart Health project has important social value first.

For solve some problems, CEPC invite more powerful teams to support Heart Health project now.
